

**MANIPAL COLLEGE
OF PHARMACEUTICAL SCIENCES**
MANIPAL
(A constituent unit of MAHE, Manipal)

INVITE

Manipal College of Pharmaceutical Sciences (MCOPS)

This 60 year old institution, is a behemoth among the colleges offering programmes in pharmaceutical sciences in the country. The growth of the institution has been spectacular, thanks to the benevolent management, dedicated faculty and supporting staff and enterprising students.

MCOPS attracts meritorious students from across the length and breadth of India and from abroad. MCOPS is known for quality in academics, research and extracurricular activities.

At MCOPS, learning is facilitated through conduct of workshops, conferences, symposiums and seminars. MCOPS has been the launching pad for a large number of highly successful pharmaceutical scientists, entrepreneurs and academicians. The institution continues on its onward journey, true to its slogan- Marching with the Times.

Dr Sadhna Joglekar - A Pen Sketch

Decisive, results-oriented, transformational and passionate medical affairs and clinical research professional, Dr Sadhna Joglekar is the Head of Global Drug Development (GDD) Centre in India for Novartis. She is also a member of the NGSC (Novartis Global Service Center) Board in India.

As Head of GDD in India, Sadhna leads the **creation and implementation of the overall long-term vision and strategic priorities for GDD India that will enable growth for all GDD functions in India**. She also plays a key role in facilitating cultural changes that empower GDD India associates to realize their full potential and have a big impact on patients. Prior to Novartis, she worked with Sun Pharmaceuticals as Senior Vice President and Global Medical Head [excluding USA] for Innovative Patented Portfolio. She has a proven track

record of successfully leading Country, Area and Regional medical affairs teams across APAC, China, Japan, LATAM, Russia/CIS, Middle East, and Turkey, with a focus on value creation for stakeholders as the innovative pipeline moves from clinical development into commercialization phase across broad spectrum of therapeutic areas. She has a special interest in people development, successfully building cutting edge medical affairs and clinical research teams that are capable of developing robust clinical evidence and then disseminating that evidence to the external stakeholders.

Efficient multi-tasker, with unique combination of strategic vision, enterprise thinking, detail orientation, and task prioritization, she is known for an objective and proactive approach to problem and conflict resolution with uncompromised integrity. Sadhna is experienced in designing blueprints for new fit-for-purpose medical and clinical organizations and managing technical and cultural integration post company acquisitions. She has many publications to her credit and is an invited speaker at many conferences.
