Organizes

E-Symposium on Integrated Approaches to Drug Discovery and Development – An Update

25th – 27th July 2022.

A virtual Symposium and e-Poster Presentation

About the virtual Symposium

In today's time, it's a prerequisite for all educators to update and refresh their knowledge. This improves quality of teaching – learning process, helps students to achieve greater results and gives teachers more confidence. Pharmaceutical Chemistry is a multidisciplinary subject involving Drug Design, Synthesis, Analysis and Development. Hence a Pharmaceutical Chemist requires the knowledge of all the above given allied areas. This symposium is designed to create a concerted forum to deliberate on Drug discovery and development using latest **Computational tools, Wet Lab and Analytical Approaches**. Academicians, Research scholars and Postgraduates can attend.

Platform: MS Teams
